

MAA Vision Statement:

Assure the opportunity for eligible children to obtain needed Medicaid services.

Goals:

To increase the number of children receiving preventative and early detection medical services.

To assist children and families to access needed Medicaid services.

To provide effective, efficient, compliant and consistent statewide administrative match activities.

To assure the opportunity for Medicaid services in a community. (Note: it was agreed this goal be reviewed.)

General Workplan:

- ❑ **During June – August 2003, jointly (Medicaid Agency plus state, regional and local education staff):**

Identify and understand federal and state requirements;

Develop issue papers to address problems

Determine measurable objectives for achieving the goals

Determine methods for meeting objectives;

- ❑ **During the first quarter of the 2003-04 school year, initiate redesigned, federally approved, collaborative team-based School Administrative Match activities.**
